

Rocking horse
inspires to dream ...

ROCKING
HORSE

You are probably aware of the difficulty in making the first steps. It is not easy at all if your life experience is only a few months. A child intuitively feels that this process will be easier when swinging. The swinging process not only strengthens the muscles and develops balance, but also excites and inspires the child's broadening creative world, where ideas are born during an exciting ride.

Rocking horse inspires to dream ...

A solid yellow circle containing the text "Development while moving" in a white, sans-serif font.

Development while moving

Strengthening of the
child's balance before
learning how to walk

Classics

Classics is the prince of rocking horses!
Noble in its being and performance. He is
well known for a long time already, from generation
to generation he gives joy to the little ones.

Safe
galloping

Perfection of a curved
shape, which prevents the
horse from falling over

Ojars

Join in Ojars' saddle race over the mountains
and feel the wind blowing through the
horse's mane. But watch your own little
hat, so that it does not blow away!

A warm
touch

Wood always provides
the feeling of warmth
when touching it

Respected
character

Rocking horse that
has nursed several
generations

Zadigs

Zadigs will promote imagination and allow transformation. His character can be freely chosen - racing over flowery meadows or jumping into space!

Ludvigs

Ludvigs' saddle allows you to feel like a knight. He is a noble and trained horse. He is disciplined and will obey the commands given by his master

Pony

The Pony will be a loyal friend –
patient and a little slow, but eager
to go on a ride.

Ricks

What can be better than this?
... free space for the child's imagination
and creative expression

Certificates

Professional personnel, production and technical resources allow us to offer clients a wide range of ready items produced according to corresponding standards.

The mark of
responsible forestry

The production of rocking horses is organised in accordance with the EN71 toy safety standard and is labelled with the **CE** symbol.

The entire production is available with the FSC® certificate.
